

November School Readiness Activity

This month, please work with your child to create a turkey using feathers. Label each feather with one letter of their name. For practice with scissors, have your child cut the correct number of feathers needed to spell their name (we have included extra feathers in case of a cutting mishap). We have also included a sheet of brown paper to create the body of the turkey. We have been working on name writing, so next, we would like for your child to try to write their own name. You might need to write the letters first so he/she can copy them. After coloring the feathers and decorating the turkey body, place the feathers on to spell out their name. Please send it back to school so we can decorate our bulletin board. This activity will help your child develop skills for the following objectives:

Language and Literacy

9.1 Alphabetic Awareness

Object Control and Manipulation

12.4 Manipulation

****** If your child does not have scissors at home, please let us know. We can send you a pair to use for this activity and future activities.**

Miss Debbie and Miss Dawn

Child's name: _____

Time spent on project: please circle one_ 15min, 30 min, 45min, 1 hour

Parent name: _____

Parent signature: _____

How did your child do with this activity?

Date: _____

Teacher verification: _____
