

**Miss Julie and Miss Tiffany's January Creative Curriculum Project**  
**Biggest to Smallest Snowman**

This activity is to encourage your child to cut using correct grasp, write Their first name using correct pencil grasp and to count objects. Please have your child cut out the circles and put them in order from largest at the bottom to smallest at the top in order to create a snowman. Then, you can use sequins, stickers, construction paper, etc... to add a face, scarf, arms, hat, and buttons to your snowman. Have your child count the objects as they put them on the snowman. Have your child write their name on the back of their snowman. Please return the activity and this completed sheet as soon as possible, so we can hang it in the lobby for everyone to enjoy.
