Ms. Lynel & Ms. Cheryl

Our 5 senses is the topic for this take home project. We have been learning about our senses through exploration. We need your help for the sense of "touch". We are needing you to discuss as you have your children touch many objects in your home of various textures.

Ask your child to describe it. _____

Is it bumpy, rough, smooth, soft, etc..? _____

Ask them how they felt when they touched the object. _____

What texture is you favorite to touch and why? _____

Then we need you to send in a texture for us to glue on to a poster board to make a feeling board for the children to feel in class. The texture needs to be only the size of an index card. **Some textures that could be sent with your child could be:** bubble wrap, contact paper, cotton balls, sandpaper, foil, scrap of fabric, wood, etc. There is no limit to your creativity.

We ask that you bring in an item from the texture that is circled below. This is so we have an array of textures to add to the texture board. We look forward to what you and your child bring.

Soft

Hard

Rough

Bumpy

Smooth

Child's name _____

Name of adult who helped (print) _____

Adult signature _____

Date _____

Time Spent on Exploring: (circle one) 30 min. 45 min. 1hr.

Objectives Met:

2.1 Classification

4.1 Scientific Inquiry

7.1 Speaking

Teacher's Signature: _____ Date: _____
