16	17	18	19	20 POLICY COUNCIL @ 5:15PM	21 	21
23	24	25	26	27	28	29
30	31 	<p>About this Month: We are learning about insects such as butterflies and bees. We will be looking for bugs on the playground with our magnifying glasses and our bug jar. We are learning why bees are so important to our planet. We have finished all our letters and will be talking about numbers 1-20 for this month. We will also be talking about planting, seeds, and pollination. We will be celebrating the summer birthdays this month! We will be tie-dyeing our shirts and doing some fun end of the year activities too. We hope everyone has a safe, fun summer!</p>
