

## Creative Curriculum Project: Emotion Book

An easy project to do with your child is to create a homemade book. Use the attached papers to create one that he/she can share with his/her classmates. You can make a book about one emotion and have your child fill the pages with things that make him/her feel that way. For example, a “Happy Book” may have pictures that you and your child draw of things that make him/her happy, pictures cut out of magazines that are glued on the pages, or photographs of friends and family members. Another approach is to have the book be about a variety of feeling words and do a page on each of several emotions (happy, mad, surprised, scared, proud, etc.). For children who have a lot to say about their feelings, you may want to have them tell you a sentence about what makes them feel an emotion so you can write the sentence on the page. Then, your child can cut out a picture to glue in the book or draw a picture to go with the emotion. Have fun!
