**NOTES:** If your name is on the calendar. You are welcome to come in join us, and help in the classroom, but remember you are always welcome to come in and volunteer. We will be talking about plants and what kinds of plants you find in a garden. Comparing the different types of gardens (flower, vegetable, and fruit gardens). We will be getting butterflies and tadpoles in our classroom and studying their life cycles. On the 23<sup>rd</sup> we will be going to the dome to celebrate a great year at Head Start. We have had a great year and have enjoyed teaching your children. They have grown so much, and we will miss them a lot. Thank you for a great year. We will be doing home visits at the end of May.
