

Number Recognition

Miss Tammy and Miss Katherine's Creative Curriculum Project

This activity is to help your child recognized their numbers. We want you to make a caterpillar. On each circle, write a number from 0-10. Don't forget to make a head! Glue your caterpillar together and have your child place the numbers in numerical order. After you are finished, answer the following questions:

- What numbers were your child able to name? _____
 - What numbers did your child recognize? _____
 - Could your child write each number on their own (encourage them to try)? _____
 - Could your child choose numbers that are higher/lower? _____
 - Have your child count the circles, touching one at a time. Could your child point to and count each number up to 10? _____
 - Did your child use the proper scissor position while cutting out the circles? _____
-

Child's name _____ A.M. or P.M.

Name of adult who helped (print) _____

Adult signature _____

Date _____

Amount of time spent on this project- 30 Minutes 45 Minutes 1 Hour 1.5 Hours

Verified by staff _____ Date verified _____

Objectives:

7a: Uses fingers and hands

20a: Counts

20c: Connects Numerals with their quantities
