

January Creative Curriculum

For this activity, please help your child cut out all the food pictures. Then mix them up and ask your child to find a food that starts with each letter sound from the alphabet and glue it to the shopping cart page. Based on your child's ability, you might want to use only a small number of the pictures if it is too challenging for them. You might also need to verbally make the sound of each letter to support your child as they find each picture. This activity will help strengthen skills in the area of:

Language and Literacy

8. Phonological Awareness

9.1 Alphabetic Awareness

Please return the bottom portion of this note.

Thank You,

Miss Debbie and Miss Dawn
