## February At Home Project

Please fill out the attached questionnaire with your child and make a family picture collage (using the attached construction paper). You may add any family members who are special to your child to the collage. We will be displaying these collages on our family board in our classroom. Your child may decorate the poster however they would like. If you need us to print family pictures or make copies of pictures, please send them in with your child or email them. We hope you enjoy making your collage, and spending time together sharing the memories.

Have fun!
