

Miss Peggy & Miss Christina

Our at home Creative Curriculum for this month is to create a kite using different shapes. Use a piece of paper(kite shape provided) and have your child draw or glue shapes on it. There is extra paper included in your packet for drawing and cutting shapes. The following shapes could be used: a diamond (rhombus), square, circle, oval, hexagon, octagon, pentagon, rectangle, heart, or star. When you are done adding the shapes to your kites, please have your child count all the shapes on the kite and write the number on the back. We want you and your child to work on this together, so they can show their understanding of shapes and practice counting. Have fun!

**Strand 3.1 B.** Understands Shapes      **Strand 1.1** Counts      **Strand 10.1** Uses writing tools
