

Planting

Creative Curriculum Project

We have been learning about plants in class. Please work with your child to plant something at home. This promotes fine motor skills and working together as a team. This is important to develop cooperation, responsibility, and completing a task. The child can count the number of seeds they plant and measure the soil they put into their pot. We have provided a pot, soil, and seeds for you to enjoy!

Please complete the creative curriculum project sheet and return.

Early Learning Scale Strands:

1.1 – Functional Counting

3.2 – Measurement

4.1 – Cognition & General Knowledge

12.4 – Object Control & Manipulation
